SPB Maths Newsletter

Summer 1 Newsletter: Issue 5

This month's sport in numbers:

60,000 people from the UK are estimated to be travelling to Spain next weekend to attend the Champions League Final fixture, Tottenham v Liverpool.

3 players received the Premier League Golden Boot this season: Pierre-Emerick Aubameyang, Sadio Mané and Mohamed Salah, each scoring 22 goals.

1 hundredth of a second is how much Great Britain's 4x100m men's relay team won bronze by at the World Relay Championships in Japan.

We are Gold!

The Maths Ambassadors are delighted to announce that on the 22nd April, St. Paschal Baylon Catholic Primary School was awarded Gold for the Liverpool Counts Quality Mark. The process started in November and after an amazing amount of work by the Ambassadors and our amazing teachers, their work has paid off!

We are Gold!

Not stopping there, we have continued our work and come up with some big ideas to progress the Maths even further, these are:

Outdoor Maths lessons and to develop Maths in the Curriculum – including curriculum display boards.

Developing a love of Maths is still our number 1 priority and we have been doing lots again.

Active Maths

In our final term, we are excited to be doing some maths lessons outdoors!

By raising positive attitudes to Maths, whilst

simultaneously increasing levels of physical activity, we hope to inspire and motivate our pupils towards maths and promote a healthy

lifestyle!

Mind workout

Last term's 'figure me out' was Miss Wilson! Well done to all the children who solved this correctly!

figure ME out!!!

my age	birth month	birthdate
In the 3 & 13 times tables	500 - 491	$\sqrt{121}$
letters in my name		people in my family
12 ÷ 2		The first odd prime number
number of pets	my house number	my shoe size
1 x 1	5 ²	1+2+3+4

My Bnk

Our Year 6's will be having finance lessons provided by My Bnk which will help our children tackle money problems which will help them in their future.

My Bnk builds financial capability at key transitional moments, addressing mindsets, attitudes and behaviours to help young people form an understanding of the wider world of money.

Topics include saving, budgeting, public finance, debt prioritisation, digital finance skills and enterprise.

Everyone needs to be able to manage their money; it is just common sense. But for young people the inability to do so has serious consequences. For them, it is easier to fall into debt, be scammed, make uninformed decisions and establish bad money habits.

We believe it is important for setting our children up to be ready to deal with such real life problems.

**STRENGTH
IN NUMBERS**

Have you completed the National Numeracy Challenge yet? Send a picture with your certificate to maths@paschalbaylon.org.uk and we will share your achievement with the class!
